Those who take the time to read our little paper, rarely, if ever, stop to think of the time and thought that goes into its columns. Every Monday our staff meets to prepare last week's news. And the "scoops" we get from our reporters are sometimes good and sometimes not so good, that is, the news notes are not always reliable, so readers, don't be disappointed if you fail to see your name in print. It is due to forgetfulness, careless revision or misprints. However, we try to print all news that will be of interest to our readers.

Our high school unfortunately does not have facilities, and incidentally finances either, to publish our own periodical or year book. So it is necessary to publish a section reserved for us in the Bedford Democrat. And of course you recognize this as "The Broadcaster."

We try to write editorials, stories, poems, etc., to show you that even the pupils of M. E. Marcuse Hi are literary minded. However some weeks go by without these because we are not always filled with inspiration.

Besides local news and compositions we publish the school news, to let you know what goes on inside the walls of Alma Mater.

Church news also goes into our publication, to show the absent members what they missed last Sunday.

So you see that our staff has quite a proposition facing them every Monday. Therefore, the hearty co-operation of everyone is appreciated. (The Broadcaster Editor.)
